

DAY 1

Wednesday, 27th November

9:30 – 10:00

Registration & coffee

10:00 – 10:30

Organizers: Introduction to the workshop – **Pr. Henryk Bukowski**

10:30 – 11:15

Talk

Social cognition in alcohol use disorder: why it matters, what we know, where to go – **Dr. Arthur Pabst**

11:15 – 12:00

Talk

Second-person neuroscience: Focusing on change and dynamics of social interactions – **Pr. Leonhard Schilbach**

12:00 – 13:00

Lunch break

13:00 – 14:10

Blitz

5 short talks:

1. Neurocomputational signatures of altered adaptive mentalization in autism. **Niklas Buergi**
2. Neural mechanisms underlying memory deficits in premanifest C9orf72-repeat expansions. **Jiaze Sun**
3. Seeking convergence: Neural biomarkers and mentalization treatment for children with autism and their families. Previous results from a narrative review. **Ilenia Gori**
4. How do we change each other? The neuroplasticity of social interaction. **Daina Crafa**
5. Risk factors for internalizing symptoms: The influence of empathy, theory of mind, and negative thinking processes. **Annika Konrad**

14:15 – 15:00

Talk

Autistic adults experience greater malleability of the self after simulating other people than neurotypical adults – **Pr. Heather Ferguson**

15:00 – 15:30

Coffee & Tea Break

15:30 – 16:15

Talk

Social cognition deficits in neurodegeneration – **Pr. Jan Van den Stock**

16:15 – 17:00

Talk

Chronic loneliness as a risk factor for stress-related disorders: cognitive biases and neural mechanisms – **Pr. Dirk Scheele**

17:00 – 18:30

Discussion

World café (discussions on selected issues) – **A. Bigot, E. Pronizius & H. Bukowski**. *Drinks and light snacks.*

DAY 2

Thursday, 28th November

9:00 – 9:30

Coffee & Tea

9:30 – 10:15

Talk

Self-other distinction in individuals with borderline personality disorder: a behavioral, large-scale collaboration – **Dr. Ekaterina Pronizius**

10:15 – 11:00

Talk

Borderline personality disorder: From neuroscience to effective treatments – **Pr. Pavla Linhartová**

11:00 – 13:00

Poster session and lunch break

13:00 – 14:10

Blitz

5 short talks:

1. Relating oneself to others in time and space: A relational frame theory account of perspective-taking and theory of mind in autism. **Maura Nevejans**
2. The socio-cognitive predictors of prosocial behaviour and social understanding in early adolescence and young adulthood. **Mahsa Barzy**
3. Social cognitive dysfunction in clinical conditions: A systematic review of reviews and meta-analyses. **Marcel Eicher**
4. Do You See What I See (DYSWIS)? Understanding individual differences in spontaneous visuo-spatial perspective-taking. **Serena Maria Stagnitto**
5. Theory of mind plasticity in middle childhood: the role of school context. **Serena Lecce**

14:15 – 15:00

Talk

Daily-life social functioning in neurodevelopmental disorders: insights from EMA studies – **Pr. Maude Schneider**

15:00 – 15:30

Coffee & Tea Break

15:30 – 16:15

Talk

From interaction-focused group psychotherapy to robot-assisted intervention: New therapies for social difficulties in individuals with autism. – **Pr. Isabel Dziobek**

16:15 – 17:00

Discussion

Discussion with all speakers

17:00 – 17:30

Talk

Organizers: Conclusions and best poster awards – **Pr. Henryk Bukowski**

18:15 –

Social

Optional dinner and drinks in Brussels (*not covered*)
